Washington, Jan. 26.—Ex-Queen Liliuo-kalani held a reception this afternoon for two hours at her rooms in the Shoreham. It was her purpose to confine the reception mainly to newspaper men and such persons in official life as cared to call. However, the ladies in the hotel soon passed the news of the affair to their friends elsewhere and in consequence the small parlor set apart for the callers was well crowded with persons, mostly of the fair sex, and generally animated by a feeling of curiosity to see the woman who had been a queen and had filled a page in the history of Polynesia.

The queen was assisted in the recent.

These letters, many accompanied with crude drawings of the laboriously described fenders, are sent to the company by school teachers, farmers, telegraph operators, stereke-pers and in fact men of every like occupation. Most of the inventors live, in Kansas, where during their leisure hours they have undertaken to solve the difficulty over which the street railway company has been puzzling itself for years.

General Manager Holmes stated yestorday that for weeks his mail had been increasing daily with the letters from inese great fender inventors, each positive that his fender is just what the company has been seeking for years. Some of the ludicy cross description and plans are almost conclusive evidence in themselves that their inventor could count on his finger the number of times he had even seen a street cat.

Some of the proposed fenders were to be in the shape of old-fashioned clothes baskets, in which the unfortunate person would be caught without even spolling his clothes; one fonder was to extend in front of the car to a distance of fourteen feet, and two of the inventors proposed that the cars be built to their fenders.

These lengthy letters which are daily urraving at the general office of the Metropeditan company in increased numbers, have not as yet been referred to the company's chief engineer for his consideration.

Mr. Palmer, acting as her chamberlain, received the callers at the doorway and presented them to the receiving party. The queen was becomingly attired in a black slik gown, trimmed with royal purple, and bore herself with great dignity, responding aptly to the salutations of her callers and having a pleasant word for everyone.

Whether or not she will again receive the public in Washington is not known, and when she was asked the question how long she intended to remain here, she replied that she did not know; she found it so pleasant in Washington that she had as yet given no thought to departure.

BENJAMIN F. CATES ON TRIAL FOR SHOOTING MONROE BALES.

Crime Was Committed October S Last at Fifth and Wyandotte-Both Parties Members of the Best Families in Ray County.

Benjamin F. Cates, of Richmond, Mo. will be tried in the criminal court this week, beginning to-morrow, for the murder of his cousin, Monroe Bales, on last carnival night, October 8. All of yesterday afternoon was taken up with the impaneling of a jury from which the state and defense shall exercise their peremptory challenges. The hearing of evidence wil begin to-morrow morning and it is hardly probable that the trial will be concluded within four or five days. There are sixty

within four or five days. There are sixty witnesses from Ray county to be heard, in addition to the immediate witnesses of the act of shooting.

The trial is sure to be replete with dramatic incidents, as the two parties to the killing belonged to the best families in Ray county. It is said that there was a long standing grudge getween the two men and that Monroe Bales had threatened Cates' life on several occasions. Both the young men were in the city last carnival night and met in front of Richards & Conover's hardware store, at Fifth and Wysndotte. It is said that Bales was unarmied. Cates fired six shots, all of which took effect.

Cates is setting up a plea of self-defense. Prosecuting Attorney Lowe is being assisted by Prosecuting Attorney Farris, of Ray county. The defense is represented by Major Blake L. Woodson and J. W. Garner. The case will be one of the most stubbornly contested for years.

J. C. Repine will be tried February 12 for attempting to hold up an electric carnear Washington park. Ed Lacey will be tried February 15 for murder in the first degree. C. W. Howe pleaded guilty to petit larceny and was given ten days in jail. Henry Snyder was found guilty of burg-

The grand jury did little business yesterday, and only two or three witnesses were examined. It was stated that most of the examined. It was stated that most of the day was spent in voting on indictments to be returned, and it is said that at least a partial report will be submitted to-day. It was announced yesterday that the investigation into charges of jury fixing had developed nothing whatever, and that the fact that persons had served on juries oftener than the law allows were not regular jurors, but those pressed into service when the regular panel had been exhausted.

It is understood that alleged jury fixing in the circuit court was also inquired into.

P. D. Tobin, of 1814 Troost avenue, was tried before Justice Walls yesterday and bound over to the grand jury on the charge of obtaining goods under false pretenses.

L. E. Fryer, a paper hanger living at the Montague hotel, sold Tobin some furniture and took in payment a note on forty acres of land in Putnam county, in this state. Frye telegraphed to the recorder of that county and found that Tobin owned only ten acres, instead of forty, and swore out a warrant for his arrest. Tobin was arrested once before for trying to obtain money in the same way.

Cudahy 0il Company Hunting for a Big Oil Pool Near Bartlesville, I. T.

Independence, Kas., Jan. 26.-(Special.) The Cudahy Oil Company will commence to sink another well this week in the immediate vicinity of Barttesville, L. T. They have leases on large tracts of land in this part of Kansas and the Indian Territory, and have been very active in developing it. They intend to sink this well to a depth of over 2,000 feet, and are confident they will find the big oil pool which all the prospectors agree exists somewhere in this locality. The Murphy well, near here, struck good oil at a depth of 1,100 feet, and at Caney oil was reached at a depth of 1,400 feet, while at Red Fork, fifty miles south of Bartlesville, the Cudahy people have just completed a well which showed oil at a depth of 1,000 feet. Other wells have been drilled east and west of Bartlesville, and all show a gradual dip towards Bartlesville, and the Cudahy people are confident they will make a rich find. The wells in this vicinity are kept pumping only part of the time, and only four or five crews are kept at work to give employment to the men, for the reason that all the storage capacity is exhausted, and oil men say that oil will keep better under the ground than on top. Another big storage tank is to be put in shortly. It will be the eighth. ity. The Murphy well, near here, struck

That's what a man said about our Goodyear welt shoes at \$2.50, and he was. He had on a pair of old, wide, square toes that we sold him most two years ago, and he said he had a kick coming. He didn't want anybody to sell him another pair of shoes that would wear so long that they'd be all out of style before they wore out. His wife roasted him for wearing old style shoes one minute, and declared he shouldn't buy another pair while those were so good, the next minute, and there he was. All of our \$2.50 Goodyear welt shoes don't wear two years. It depends on how they are worn and what business a man is in. This man who was after shoes that wouldn't wear so long was a book agent, and he didn't do very much walking. He was lying a good deal. Have you noticed the new shoes in the shoe window?
